

Caring for the planet is a natural extension of Hyatt's purpose – to care for people so they can be their best. At [Park Hyatt Toronto](#), we are dedicated to sustainability and are committed to making a difference through our daily processes. To learn more about Hyatt's sustainability efforts through [Together by Hyatt](#), click [here](#).

OVERVIEW

- Extensive energy, water & recycling programs
- Near zero-waste initiatives in culinary & F&B to source whole, produce locally, and upcycle all secondary use ingredients.
- In-house water filtration program
- Walkable destinations
- Electric charging stations

CARBON EMISSIONS AND WATER

- Lights and air conditioning are turned on in meeting rooms only when needed.
- Our daily operational reports are used to effectively schedule heating and cooling needs.
- Water served using carafes is the default offering for meetings and events, filtered internally through our Vivreau water system.
- Suggesting lower-impact options for centerpieces and décor, such as potted plants rather than flower arrangements

WASTE AND CIRCULARITY

- All bottles are recycled back to suppliers, which we are issued a spending credit for.
- Plastic straws are not used. Rather, straws made of paper are offered upon request.
- Mobile Entry is available through the World of Hyatt app to eliminate the number of plastic keycards handed out
- Supporting digital signage and offering Hyatt Apps to help enable a paperless meeting

OUR FOOD PHILOSOPHY

Hyatt's *Food. Thoughtfully Sourced. Carefully Served.* philosophy guides us in how we select ingredients that are better for people, communities, and the planet.

- Free-run eggs are utilized in our restaurants
- Zero waste culinary programs include upcycling of ingredients for secondary purpose.
- Whole animals are purchased and broken down, utilizing every possible part of the animal.
- Nearly all produce is sourced from local farms, and nearly all items in the hotel are produced in house.
- Seafood is sustainably purchased from responsible sources
- Plant based & plant forward menu items are offered in our restaurants and for events

ADDITIONAL SUSTAINABILITY OPPORTUNITIES FOR MEETINGS AND EVENTS AT PARK HYATT TORONTO

We aspire to make it easy for our guests to incorporate more sustainable practices during their meetings and events. Our hotel events team is ready to discuss how we can support or provide guidance for the options below:

- Using refillable solutions for water rather than single use bottled water through our Vivreau filtration system.
- Supporting digital signage and offering Hyatt Apps to help enable a paperless meeting.
- Plastic-free environment, including all bottles and packaging.
- All sales collateral paperless and digital only.
- Suggesting lower-impact options for centerpieces and décor, such as potted plants rather than flower arrangements, using digital backdrops instead of physical items, and alternatives to avoid single-use decorations like balloons.
- Coordinating the temperature of event spaces to reduce energy use while supporting attendees' comfort.
- Providing event-specific environmental footprint information aligned with the Hotel Carbon Measurement Initiative (HCMI) and the Hotel Water Measurement Initiative (HWMI) methodology.
- Discussing the best ways to reduce food waste, such as ensuring updated headcounts for each meal, opting for plated meals over buffets, selecting the Menu of the Day when buffets make the most sense, leveraging the hotel restaurant for smaller groups, and eliminating overage guarantees in contract language.
- Brewing limited amounts of coffee in order to cut down on waste.
- Designing plant-based (vegan or vegetarian) meals or switching some portion of the meal to be plant-based, in order to meet attendees' dietary considerations, sustainability priorities, and culinary preferences.
